Department of Medicine Mini-Research Retreat
Genomics and Medicine Today
208 Light Hall
Saturday, March 12, 2016
Please RSVP at https://www.surveymonkey.com/r/DOMGenomics

8:00 am  “Overview of Genetics at Vanderbilt”
Nancy J. Cox, Ph.D.
Director, Vanderbilt Genetics Institute
Director, Division of Genetic Medicine
Professor of Medicine

8:50 am  “An Epigenomics Perspective on Sequence Variation and Disease”
Emily Hodges, Ph.D.
Assistant Professor of Biochemistry

9:15 am  “Vanderbilt’s Undiagnosed Disease Network Center”
John A. Phillips, III, M.D.
Director, Division of Medical Genetics
Professor of Pediatrics, Medicine, Pathology, Microbiology and Immunology

9:40 am  Break

9:55 am  “Genetics of Pulmonary Fibrosis”
Timothy S. Blackwell, M.D.
Director, Division of Allergy, Pulmonary & Critical Care
Professor of Medicine, Cancer Biology, Cell and Developmental Biology

10:20 am  “Update on Personalized Medicine”
Joshua C. Denny, M.D.
Associate Professor of Biomedical Informatics, Medicine

10:45 am  “Cancer Molecular Profiling:  The Challenge of Receiving and Interpreting Cancer Clinicogenomic Data”
Jeremy L. Warner, M.D.
Assistant Professor of Medicine

11:10 am  “Predicting Drug Response in the 21st Century”
Sara L. Van Driest, M.D., Ph.D.
Assistant Professor of Pediatrics, Medicine

11:35 am  “Cardiovascular Genomics at Vanderbilt: Successes, Lessons Learned, and the Future”
Quinn S. Wells, Pharm.D., M.D.
Assistant Professor of Medicine, Pharmacology

12:00 pm  Wrap up
Genomics and Medicine Today
March 12th 2016 8am-12pm
Light Hall 208

Chairperson: Nancy Cox
Participants: Quinn Wells, John Phillips, Tim Blackwell, Jeremy Warner, Emily Hodges, Sara Van Driest, Joshua Denny

Please RSVP at https://www.surveymonkey.com/r/DOMGenomics
